swing the 8th notes

The musical score is written for a double bass in 3/4 time. It consists of four systems of two staves each. The first system starts with a dynamic of *mf* and includes the instruction "swing the 8th notes". The second system begins at measure 6 and features a *mp* dynamic in the bass line and a *fp* dynamic in the treble line. The third system starts at measure 11 and includes markings for "Arco" and "Pizz." in both staves, with a *mp* dynamic. The fourth system begins at measure 16 and features a *mf* dynamic. The score is characterized by frequent triplet markings and slurs, particularly in the bass line. The piece concludes with a fermata over a whole note in the final measure.

Good points are your use of idiomatic string sounds: pizz, harmonics, tremolo, etc. Also your variation of the main ideas. You could make improvement in tonality - aside from some excursion at m. 30 + m. 39, you stick closely to D minor. You could not return to D at m. 43 - go somewhere else - G minor or even F minor. But your development instinct is admirable. Keep on writing!

JONATHAN'S DREAMS

I am somewhat assuming that the Jonathan referred to in the title of this piece is also the cellist on the performance tape. He is an excellent cellist as is also the violist. The opening or expository theme is a short little four-note motive in d minor. Although there is no key signature, the presence of the Bb in measures 5, 6, 7, 9 and 14 strongly suggests this d minor tonality in the opening measures of this work. After two successive statements of the motive in the viola over a low D pedal in the cello in measures 2 - 4 there is some developmental material followed by a motivic dialogue between the viola and cello in measures 20 through 34. While the viola plays a series of harmonics, the cello has an excellent pizzicato passage that seems to emulate the walking bass line of a jazz upright bass. This is followed by a dialogue of alternating chords and eighth-note triplets between the two instruments. The four-note motive is played in quarter-note harmonics in the viola in measures 55 through 67 and after a final appearance of the original motive in the viola in measures 87 through 89 the piece closes in measure 95 with a D2 in the cello and a D5 in the viola.

There is some excellent contrapuntal dialogue throughout the entire composition between the two instruments. Creative musical contrast is promoted through changes in register, dynamics, chromaticisms, rhythmic activity, texture and the effective use of an extensive variety of methods of articulating notes on the two instruments. The swinging (or swung) eighth-notes is very good and the utilization of the opening motive as a developmental device throughout the work is also very good.

Tony Bernetich
